BCIU Staff and Students Honor Memory of Classmate With Scholarship Fund

Teachers and classmates of a Berks County Intermediate Unit Alternative Education student, who was killed in a car accident in March 2006, will honor her memory by donating \$440 to the GoggleWorks scholarship fund established in her name.

The presentation of the Second Annual Ashley Boyer Scholarship Fund will take place on **Friday, May 9, at 10:30 am at the GoggleWorks, 201 Washington Street, Reading.**

Students and staff at the Alsace facility made and sold holiday ornaments in December, held raffles, and donated items to raise money for the fund. Ashley Boyer had been enrolled in the BCIU Alternative Education program when she succumbed to fatal injuries she received in a car crash on Route 61 in March 2006. Because she had exhibited promising artistic talent and had shown interest in activities at the GoggleWorks, a nonprofit community arts center in Reading, a scholarship fund in her name was established there so that a student without the financial means will have an opportunity to experience a class at the GoggleWorks.
